Opera Comique May Have New Dressing Rooms.

SPECIAL BY CABLE.

Paris, Dec. 7.—M. Carre, manager of the Opera Comique, has raised a cry of alarm for his artists' accommodation.

The stage dressing-rooms at the Opera Comique are so small that no emergency exits could be provided for escape of the personnel in case of fire. M. Carre urges the purchase of an adjoin-

ing house, looking on the Boulevard des Italiens.

If the reader took the time and trouble to ask his fellow-residents of St. Louis the simple question given below, he would chain the one answer. If he would read the statements now being published in St. Louis, which refer to this answer, it would surprise him to note that they number so many. As many more could be, and may be, published, but in the meantime ask the first person you meet what cures backschef. The answer will be, Doan's Kidney Pulls. Pills. Here is a citizen who indorses our claim:

Mr. Raymond Fischer of 1916 South Ninth street mays: "I had attacks of kidney trouble for years, but in the winter of 1901 the attacks were more severe than any previous time. I have had to lay off work many times on account of my back, for the suffering across the loins was so excruciating that I could not bring the least strain on the muscles without feeling it. When the attacks were at their height, too frequent action of the kidney secretions was in evidence, and thinking that Doar's Kidney Pills might help, if not cure, I went to the Weigf. Wilson Drug Company's for them. From the results obtained I am convinced that they are the best kidney medicine I ever used.

to hold stock in the STANDARD OIL CO., as they are paying dividends twice as large. Would you? Or in any of the numerous mrge dividend-paying financial institutions of the highest standing throughout the country?

FINANCIAL.

Is it a safe investment? It is, Why? Because the money is invested in PRODUCTIVE REAL ESTATE, which is considered the safest as well as the most profitable investment on the face of the earth, Past experience has proven it. Where, then, can there be found a safer investment than in PRODUCTIVE REAL ESTATE? Of all the financial and industrial in-

Is 24x too good or too large for you? If so, then you would not care ! stitutions in the world there are three that head the list for good, safe investments. The first is PRODUCTIVE REAL ESTATE: second, LIFE INSURANCE: third, BANKS. Statistics prove that where there is \$1.00 lost by failure in PRODUCTIVE REAL ESTATE, there is \$200 lost through failure of LIFE INSURANCE and \$3,00 through failure of BANKS. We but seldom hear of a failure through PRODUCTIVE REAL ESTATE, but there is hardly a menth passes but what the newspapers tell us of one or more BANK failures. Yet your banker may be the very first man to advise you not to invest in PRODUCTIVE REAL

### A SENSIBLE INVESTOR.

"I take no stock whatever in advice from friends or others," says a sensible investor, "for I recollect of a now prominent STANDARD OIL MAG-NATE going through the city of Cleveland offering to sell that stock at \$1.00 a share. Some bought; many refused to buy. I had \$10,000 ready money in bank at that time, and the President of the bank, and a friend of mine, advised me not to invest. I took his advice and lost \$7,500,000 by so doing, as the stock would be worth that sum to-day if I had it. So I am one of many who are convinced that there is more money made by investing in good stocks than by following advice."

PRODUCTIVE REAL ESTATE, such as Oil Wells, Gold Mines, Copper, Coal Mines, etc., are more desirable and more profitable than NON-PRODUCTIVE REAL ESTATE and safer than BANKS. Is there any man in the United States that Is satisfied with 6 per cent or less on his

investment if he knows where he could get four times as much providing the security is just as good? We have reference here to two kinds of REAL, VALUABLE, REAL ESTATE - PRODUCTIVE and NONPRO-DUCTIVE-one more valuable than the other. For instance, you owned an agre of valuable NONPRODUCTIVE REAL ESTATE Your selling price, say, 81,600. But in case you discover a gold mine just below the surface that would produce \$100 a day net, what then would be your selfing price? You would say, cheap at \$300,000. Why? Because it would pay for itself the first year. If you were to drill a well and "strike oil," producing \$100 a day not, what then would be your selling price? You would say, cheap at \$300,000, because it would pay for itself the first year, and in five years' time the purchaser would be a millionaire. The same would be the case with a copper or a coal mine, PRODUCTIVE REAL ESTATE is what makes millionaires

If the readers of this advertisement will only investigate and give some attention to this advice, every man and woman investing in the stock of a well-conducted Ohio or West Verginia oil property will reap large profits without any risk, and with absolute security.
